

Loblolly Pine

Pinus taeda

- Category:** Evergreen
- Growth Rate:** Fast
- Adaptability:** Full sun
- Shape:** Oval
- Size:** 50-75' tall, 25-35' wide
- Fall Color:** Green
- Wildlife Value:** Provides nesting sites and cover for birds
- Description:** Pines are often grouped together in a landscape and they are becoming more popular for planting. They create a light shade which allows grass and other plants to easily grow beneath the canopy.
