

# Red Buckeye

Aesculus pavia

- Category:** Deciduous
- Growth Rate:** Moderate
- Adaptability:** Full sun to part shade
- Shape:** Irregular rounded
- Size:** 12-15' tall, 12-15' wide
- Fall Color:** Unremarkable
- Wildlife Value:** Flowers are attractive to ruby-throated hummingbirds
- Description:** Prefers moist, fertile soils. Foliage needs some afternoon shade in hot summer climates. Can drop its leaves by the end of summer. The seeds and young shoots are poisonous if ingested.
