

Japanese Yew

Cephalotaxus harringtonii

Category: Evergreen

Growth Rate: Slow

Adaptability: Full sun

Shape: Oval and pyramidal

Size: 5-10' tall, 5-10' wide

Fall Color: Green

Wildlife Value: Provides cover and nesting sites for birds

Description: It has a broad, shrubby habit with horizontal branches but can also be trained into a small tree. It can tolerate shade better than most other needled evergreens.
