

Dynamite Crape Myrtle

Lagerstroemia x 'Dynamite'

Category: Deciduous

Growth Rate: Fast

Adaptability: Full sun

Shape: Upright and spreading

Size: 10-20' tall, 10-18' wide

Flower Color: Creamy red blooms in full sun

Description: Dynamite features crepe-papery, 6-14" long cherry red flowers from mid-summer to early fall. Foliage emerges reddish in spring, matures to dark green in summer and turns orange to red in fall. Flowers give way to round seed capsules which often persist well into winter. Tolerates drought, clay soil and air pollution.
