

Autumn Gold Ginkgo

Ginkgo biloba 'Autumn Gold'

Category: Deciduous

Growth Rate: Fast

Adaptability: Partial shade or partial to full sun, tolerates wide range of soil conditions

Shape: Oval

Size: 25-50' tall, 25-35' wide

Fall Color: Attractive golden yellow

Description: All-male cultivar features distinctive, two-lobed, somewhat leathery, fan-shaped leaves. Adapts well to most urban environments. Ginkgo is the only surviving member of a group of ancient plants believed to have inhabited the earth up to 150 million years ago. Commonly known as maidenhair tree.
