

Bracken's Brown Beauty Magnolia

Magnolia grandiflora 'Bracken's Brown Beauty'

Category: Evergreen

Growth Rate: Average

Adaptability: Full sun to partial shade

Shape: Pyramidal to rounded crown

Size: 20-35' tall, 15-30' wide

Flowers: Large, extremely fragrant white flowers, May- June

Description: Native to wooded areas in southeastern United States. The evergreen, dark green foliage forms a dense, narrow, pyramidal-oval crown with fragrant white flowers in summer. Fruit attracts birds and wildlife. Beautiful specimen flowering tree for lawns.
