

Little Gem Magnolia

Magnolia grandiflora 'Little Gem'

Category: Evergreen

Growth Rate: Slow

Adaptability: Partial shade or partial to full sun

Shape: Upright or erect

Size: 15-20' tall, 7-10' wide

Flowers: Showy, fragrant, white flowers in spring

Wildlife Value: Provides winter cover.

Description: Native to wooded areas in southeastern United States. Flowers bloom in late spring, with sparse continued flowering throughout the summer. Flowers give way to cone-like fruiting clusters that mature in late summer to early fall. Attracts birds and wildlife.
