

# Atlantic White Cedar

*Chamaecyparis thyoides*

**Category:** Evergreen

**Growth Rate:** Medium

**Adaptability:** Full sun to part shade, prefers sandy, peaty, moist to wet, acidic soil

**Shape:** Conical

**Size:** 30-50' tall, 30-40' wide

**Wildlife Value:** Provides cover and is a larval host plant for butterflies

**Description:** Atlantic White Cedar is a woody, needled evergreen tree. Does well in wet areas with poor drainage, or along ponds, streams or boggy sites. Has soft blue-green needle-like foliage, and seed bearing cones in clusters emerge purple but mature to brown.
